

ONLINE TOOL TO SEND TRIPS TO THE MOST COST-EFFECTIVE THIRD PARTY VENDOR

TRIPSPARK TRIP BROKER is a new and Innovative tool for all users of our demand response solutions. Trip Broker allows demand response operators to easily push trips to third party providers. Once a DR system has reached capacity or dispatchers prefer to outsource trips, those trips can be offered to taxi and private transport companies through an online interface that fully integrates with all TripSpark back office systems.

EVERYTHING ONLINE AND IN ONE PLACE

The Trip Broker interface lets third parties see all available trips on a simple webpage. Taxi providers can then bid on trips, accept or reject them. Thus demand response operators are able to find the most cost efficient third party provider and realize the greatest savings possible. Because Trip Broker is web-based, it can be accessed from anywhere through the Internet and comes with a customizable user interface as well as an API interface.

COMPLETE OVERVIEW OF DEMAND RESPONSE OPERATION

Trip Broker can be customized easily. Fully integrated with our back office suites, DR operators may choose to monitor third party providers. Information such as arrival times, odometer readings or fares collected can be tracked. This information is synchronized and automatically updated in your back office software.

BENEFITS

- Outsource demand response trips with a simple click of a button
- Always find the most cost efficient third party providers to perform demand response trips
- Track key events and manage trips with total insight into all taxi providers
- Third party providers (such as taxi vendors) don't need technology other than a web browser
