

THE NOTIFICATION SYSTEM THAT CHANGES EVERYTHING

The new TripSpark Notifications System is a demand response application that takes rider engagement to the next level. Cloud-based and entirely accessible, passengers are given up-to-the minute notifications to enhance their total transportation experience. Riders can also call or text in to receive scheduled trip information. TripSpark Notifications provides the same capacity and benefits as more weighty and expensive systems, but it is an easy add on for demand response operations. From the vehicle to the notification system, to the devices of riders at home, your community stays connected.
