

TRIPSPARK VANPOOL

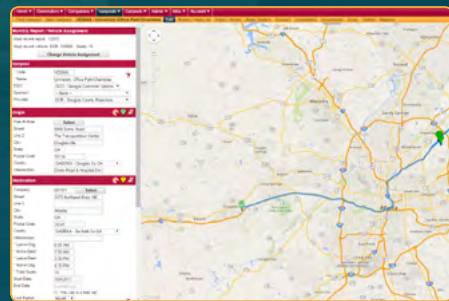

Vanpooling programs are popular for employers to help their employees travel to work and move commuters out of their personal vehicles. TripSpark vanpool management provides comprehensive support for vanpool operations to enable the ongoing exchange of information between vanpool groups, vanpool vehicle providers, sponsoring organizations and regional rideshare services. The software provides robust NTD reporting, which is essential to get the most out of the vanpool system and to conform to federal requirements.

HOW IT WORKS FOR YOUR RIDERS

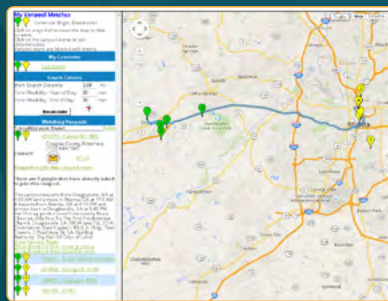

- Quick and simple feature to search for vanpool routes – even before registration
- Easily register with vanpool program
- One-click request to join a vanpool route, with wait-lists if the route is full
- More control over their ridesharing experience
- Mobile access to their ridesharing profile and personal details

HOW IT WORKS FOR YOU

- Vastly streamlines intake process to save your staff time
- No more inputting data manually onto spreadsheets
- Ability to offer added value and service to your employees
- Easily access information anywhere and anytime
- Create and manage optimized routes quickly

Complete operational oversight

Simple to use ridematching tools

VANPOOL MANAGEMENT SOFTWARE FEATURES

- Routes are created with any number of pickup and drop off stops
- Rosters are maintained with the easy assignment of commuters to the vanpool and to remove them as needed
- The public, vanpool leaders and administrators interact via an advanced wait list feature
- Vanpool leaders, sponsors and vehicle providers are able to be incorporated in the vanpool operations
- Advanced role management makes it possible to utilize multiple vehicle providers, fostering competition
- Vehicle inventories are maintained and tracked

WHY IS TRIPSPARK VANPOOL MANAGEMENT A PERFECT SOLUTION?

Communication and integration of rideshare data is key to making the process easy and efficient for riders and staff alike. Our web-based system allows easy access for all stakeholders: from program administrators down to the vanpool group leaders. And of course, our vanpooling software integrates seamlessly with our other rideshare applications, ensuring that you can maintain complete oversight over your entire commuter program.

CONNECTING PEOPLE. PLACES. COMMUNITIES.

TripSpark Technologies is a community transportation technology company focused on helping mid-sized transit agencies and private operators transform their operation - increasing community engagement and driving revenue. TripSpark makes this possible by linking the latest technologies with a dedicated focus to help you grow your operation and meet evolving community transit needs.
