

# IMPROVE OPERATIONS AND EXPAND YOUR SERVICE AREA WITH A MAP UPGRADE! NOW AVAILABLE REMOTELY!

## DID YOU KNOW...

You can easily expand your service area, save your dispatchers time (and headaches), ensure that data for new neighborhoods or city developments are visible in your system, and most importantly, increase your customers' satisfaction!

It's easy - get the most from your technology investment with a map upgrade.

## MAP UPGRADE:

New geographic areas that you may not know existed, are now yours to discover. A map upgrade is readily available for Novus and PASS customers who need assistance identifying larger service area opportunities. Here's how it works:

1. Simply book some time with me in my calendar to get started
2. Provide us with your GIS data or purchase it from TripSpark's 3rd party partner HERE Maps, a division of Telogis
3. We'll scope out the project and provide your agency with a work order
4. Then your map upgrade will be installed remotely

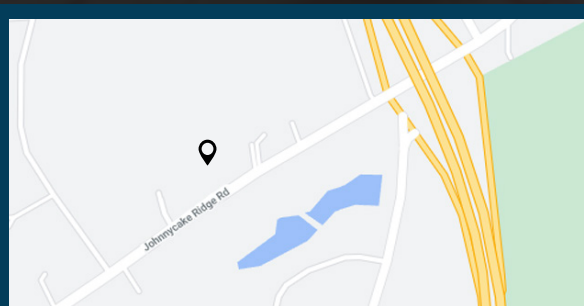

## ENJOY:

- ✓ New, up-to-date maps
- ✓ Reduced time spent by your dispatchers booking trips
- ✓ The ability to add geographic areas, and expand to other counties and cities as necessary

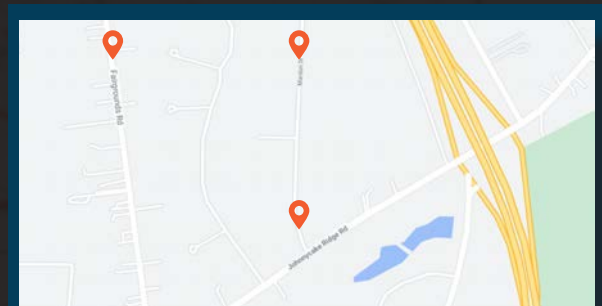

## PLUS...

Novus supports dynamic mapping tools. This enables Google Maps or Bing Maps to be visually displayed within Novus.

## BEFORE UPGRADE

## AFTER UPGRADE

## MOVING << TOGETHER

TripSpark Technologies is a transportation technology company focused on helping Transit, Medical, and School operators increase service and access to transportation, improve customer satisfaction, drive revenue, and overcome operational challenges. We are not just a vendor—we are your long-term strategic partner, offering the latest technologies and providing exceptional support.
