“ TripSpark software is phenomenal and allows us to route flawlessly. [...] The accuracy of the GPS is incredible to see our buses. I could not do my job without TripSpark's software, and would highly recommend their product.

The staff at TripSpark is top notch! They are helpful, very knowledgeable and they always respond to any and all needs we have. I have never called there and got a recording, someone always answers.

– Sandy Gifford, Transportation Director,
Barnstable Public Schools

“ As a result of our partnership, our call volume has been significantly reduced, my team has gained confidence in their abilities as we communicate to our customers, and our drivers have risen to the challenge and improved their level of commitment to our department.

Adding the real-time GPS and WheresTheBus application have been true game changers for us all. For the first time we are able to actually report accurate metrics to our board members and parents... The number of complaints has shrunk [by more] than 50%.
