

# VEO Transportation Software Ecosystem

TripSpark's VEO Transportation software allows school districts and transportation providers to effectively route regular education and special needs students safely and efficiently. The user-friendly, calendar-based interface includes in-demand features and functionality essential in today's school operations. And, as a true single-source provider, TripSpark's routing software seamlessly integrates with our GPS products, including our parent app., student tracking, on-board intelligence, and more.

## 1 CALENDAR-BASED SOFTWARE

- Efficiently manage multiple school years, simultaneously
- Extensive non-traditional routing functionality
- Accurately identify holidays, early release times, and calendar variations
- Easily make one-time changes without disrupting the student's regular schedule

## 2 EXTENSIVE NON-TRADITIONAL ROUTING FUNCTIONALITY

- Accomodate non-traditional schedules including custody arrangements, program variations, etc.
- Ensure compatibility between student requirements and vehicle equipment
- Adhere to travel restrictions with other students and/or employees
- Curbside pick-up and drop-off ensures student safety

### Student Needs:

- 4 Regular
- 2 Wheelchair

## 3 BROWSER-BASED INFORMATION SHARING

- Rapid deployment and low-cost implementation
- Quick and secure access using an internet browser
- Assign privileges based on user needs
- **VEO InfoShare** enables district personnel, contractors, and parents to securely access transportation information

NAME	DATES	PICKUP TIME	DROP OFF TIME
