

Trends That

NEMT Providers Need to Know

If you're not already using NEMT software for your operation, you may not be preparing adequately for the coming decades. Trends and statistics suggest that providers need to have the tools in place to be able to manage the coming avalanche of aged adults. Take a look at the research and see for yourself what the future holds.

Increase in Aging Population Needing Transportation

In last 7 years life expectancy rate rose by 0.6 years

214% rise
in Persons 65+
from 2012-2060

238% rise
in Persons 85+
in next 25 years

2X the amount of individuals using long-term care services by 2050

 80% of elderly live in private homes, not institutions

 45% of women 75+ live alone

Longer Lifespan + More Medical Treatments = More Trips

1 in 11 Americans suffers from diabetes

25.9%
of seniors
have diabetes

336% rise
in diabetes diagnosis for
75+ in the next 40 years

36% of aged have a disability

1.6% average reduction in deaths from cancer

50%+ of seniors show evidence of osteoarthritis

"10 percent of Medicaid consumers reported transportation problems as the primary reason for unmet prescription drug needs."

Medicaid Expands: Growth in all Areas

 Medicaid enrollment up **4.8M**

 ACA enrollment increase by **20M** in 2019

 **93%** of seniors are covered by Medicare

 **190%** growth of Medicaid Brokerages in last 14 years

 **270,000** enrollees will require NEMT post-expansion of the ACA and Medicaid

"Competitive environment ... provides for accountability."

Analysis:

Demand for predictable and reliable non-emergency medical transportation is increasing every year. In order to stay competitive and build a business, every NEMT provider needs to address areas of efficiency: scheduling, dispatching and client management. Find out how TripSpark NEMT software has the power, flexibility and scalability to provide an end-to-end solution for your operation.
